

## **In Defense of Global Capitalism**

This book comes highly recommended by both John Mackey and Philip Sansone. It is quoted extensively in John's book, *Conscious Capitalism*, which was released in late 2012.

From the inside flap of "In Defense of Global Capitalism": "Johan Norberg's book is a stunningly insightful, brilliantly detailed refutation of the crank theories of the anti-globalists. *In Defense of Global Capitalism* is a shining example of what a gifted mind can do working with the truth to advance the cause of capitalism, which in the end is the cause of every decent man and woman." --Ben Stein
