

# 2022 Year-End Report\* For Supplier Donors

## Mission

Founded in 2005, Whole Planet Foundation alleviates poverty through microlending programs in communities that supply Whole Foods Market stores with products. The focus is on women and farmers in the developing world, where a small loan can help an entrepreneur build a home-based business to lift herself and her family out of poverty.

## Suppliers are Alleviating Poverty Worldwide...Thank You!

Supplier donors contributed \$1.5 million in 2022 and have contributed over \$17 million collectively since 2007 to fund income-generating opportunities for the world's poorest people. Please enjoy these metrics from the field demonstrating the impact of your generosity.
