

In Defense of Global Capitalism, by Johan Norberg

Review by: Philip Sansone

This book comes highly recommended by both John Mackey and Philip Sansone. It is quoted extensively in John's forthcoming book, *Conscious Capitalism*, which is due to be released in late 2012.

From the inside flap of "In Defense of Global Capitalism": "Johan Norberg's book is a stunningly insightful, brilliantly detailed refutation of the crank theories of the anti-globalists. In Defense of Global Capitalism is a shining example of what a gifted mind can do working with the truth to advance the cause of capitalism, which in the end is the cause of every decent man and woman." --Ben Stein
